8 May 1979

MEMORANDUM FOR THE CHAIRMAN, DIRECTOR CENTRAL INTELLIGENCE
SECURITY COMMITTEE

Subj: Revision of DCID 1/7, "Control of Dissemination of
Intelligence Information"

Ref: (a) Chairman SECOM memo SECOM-D-504 of 26 Apr 79

1. Reference (a) forwarded a draft copy of DCID 1/7 and
requested a review and comments.

2. The Department of the Navy concurs with the draft
revision to DCID 1/7, subject to the following comment:

Page 6, paragraph 6b(2), change next to last sentence to
read as follows:

"As this is the most restrictive marking herein, no other of
these markings shall be used in conjunction with this
marking. Also, agencies will establish procedures to ensure
that this marking is only applied to particularly sensitive
intelligence and that timely procedures are established to
review requests for further dissemination of intelligence
bearing this marking."

Reason: To avoid confusion as to the extent of dissem-
ination and use restrictions as well as reducing the use of
markings applied to documents.

3. The following comments are provided for consideration.

a. Page 5 paragraph 6a(2) next to last sentence: The
prohibition on the use of WNINTEL in conjunction with other
SCI controls may be in violation with paragraph H2 of ISOO
Directive number 1.

b. Page 5, footnote number 5: There seems to be no
purpose for the footnote. Originators have always had the
option to disseminate at their discretion. It would appear
and perhaps be more desirable if the headquarters of the
recipient intelligence organization, could at its discretion
include subordinate elements.

Ser 009DB/252296

c. Page 7, paragraph 6f, add the following sentence:

"In the case of intelligence controlled under DCID 6/2, authorized distribution indicators, published separately may be used instead of the REL control marking."

Reason: This fix will permit NSA to continue to conceal the existence of exchange agreements.

R. L. WELCH
